

Call at the Journal Office.

BREVITIES.

Emin Pasha is dead.
Mrs. Block has returned from Purdy.
Be your own manicure and use Molline.
When will this agony end at Minneapolis.
Winterilla leaves the skin soft and beautiful.
Dr. Bergstein left for San Francisco last night.
C. C. Powning is back from San Francisco.

Chas. Hegard passed through to Quincy yesterday.
Miss Persia Bishop departed for California last night.

A. P. Marker of Washoe City visited Reno yesterday.

W. D. Tobey of Carson departed for San Francisco last night.

Thos. Leggett went through to San Francisco last night.

Ben Lee is enjoying a few weeks' vacation in Salt Lake City.

Another boom town is contemplated at Taylor's Camp on the N-C-O.

Judge Chatham departed for his home in Plumas county yesterday morning.

Bargains in refrigerators, lawn mowers and garden hose at Lange & Schmitt's.

Mrs. Jennie Lewis has returned from San Francisco, where she spent the winter.

There was another consignment of wheat from the north yesterday for the Riverside mills.

Plumbing, tinning and pipe work done at the lowest possible prices by Lange & Schmitt.

Alvaro Evans came in from Churchill county yesterday slightly under the weather.

The banquet at the commencement dances will be served on the floor of the Pavilion.

Fredrick's orchestra will furnish the music for the Commencement ball on Friday evening.

A large crowd of the delegates from the eastern part of the state to the Grand Lodge of the K. of P. arrived in last night.

Carnegie's employees, about 4,000 in number, are striking, not for higher wages, but for what they were paid last year.

Go to the Congregational Church for a good supper this (Thursday) evening, June 9th from 4:30 p. m. to 7:30 p. m.

Dave Eisman the well known pool seller passed through Reno yesterday on his way to Salt Lake City to attend the races there next week.

Miss Baebis, accompanied by the Misses E. ythe, Janet and Francis Newlands, daughters of Mr. and Mrs. F. G. Newlands, returned home last night.

Hoskins' Juvenile Band will accompany Patriarch Militant, Canton No. 2, on their visit to Virginia City during the session of the I. O. O. F. Grand Lodge.

The funeral of the late Mrs. Samuel Connell will take place from the family residence on Sixth street, between West and Chestnut Friday afternoon at 2 o'clock.

W. O. Graves, G. C. of the Grand Lodge of K. of P. of California jurisdiction, is stopping over in Reno a few days. He is on his way to Northern California on a fraternal visit.

R. C. Wills is receiving daily the choicest California fruits in season, such as cherries, strawberries, raspberries, bananas, lemons and oranges, and will fill all orders for the same from town and country with dispatch.

Benjamin S. Bailey, the man who swindled the United States out of a 2-cent stamp at Porterville, California, a few days ago, pleaded guilty at Los Angeles in the United States Court and was sentenced to pay a fine of \$70.

Moseley, the Stockton real estate plunger, who has left that city and so many friends holding his notes for large sums, is thought to have gone to Mexico. He was a most successful borrower. It is believed he has a large supply of cash with him.

A statistician has computed that a gold coin passes from one to another 2,000,000 times before the stamp or impression upon it becomes obliterated by friction, while a silver coin changes between 3,250,000 times before it becomes entirely defaced.

S. D. Kimball of New York, a brother-in-law of Dr. Hanson of Winnemucca, is in Humboldt county, where he is interested in the development of mining properties. If silver could be coined at the mints like gold, hundreds of New Yorkers would be interested in Nevada mines.

A battery case will occupy the attention of Justice Linn today. The facts of the case are based upon the complaint of Mrs. Jane Moss who accuses Reese Richards and Anna Tilton of assault and battery. Attorney Jullier will appear for the complainant and Benj. Carter Sr. for the defense.

The Lovelock correspondent of the Silver State says every one there is seemingly in good spirits, and expect that in a few years Lovelock will be one of the most prosperous towns in the State. The mining outlook is more favorable than it has been for years, and all they want now is a President who is in favor of the free and unlimited coinage of silver.

At a regular meeting of Pyramid Lodge, No. 19, K. of P., of Wadsworth held Tuesday evening the following officers were elected for the ensuing term: R. E. Richardson, P. C.; B. E. Moran, O. C.; G. A. McPherson, V. G.; A. C. Webb, C. of E. & S.; J. C. Erb, Prelate; C. Walstat, M. of E.; Bobt. Arthur, M. of F.; Wm. Lampson, M. at L.

THE SECOND MONETARY CONFERENCE.

The Present Proposed Conference in Paris the Third that the United States Has Called in Europe to Settle Her Financial Affairs.

The Second International Monetary Conference was held at Paris in the autumn of 1878. The American Commissioners were Reuben E. Fenton, William S. Greenback and Francis A. Walker, with S. Dana Horton as Secretary. The principal European nations were present with the exception of Germany. The Commissioners received the impression that decided progress has been made toward the remonetization of silver in Europe, but subsequent events have not vindicated their judgment. Mr. Grosvenor who was the head of the British delegation, declared that "it would be a misfortune for the world if a movement for a sole gold standard should succeed," but he indicated no purpose on the part of his own government to change from the gold standard. The conference came to no practical conclusion, simply agreeing that "it is necessary to maintain in the world the monetary functions of silver as well as those of gold," but that "the selection for use of one of the other of the two metals, or both simultaneously, should be governed by the special position of each State or group of States." The proposition of the United States "that the delegations recommend to their respective governments the adjustment of a fixed relation between the two metals and the use of both in that relation as unlimited legal tender money," was rejected. The supporters of a bi-metallic standard, though disappointed in the immediate result of the conference, received encouragement from the advance in international opinion in the years that elapsed since the previous conference (1877). At that time the nations declared almost unanimously in favor of a single standard of gold. Many of them have found in the interval great difficulty in maintaining it and were withheld from declaring for the double standard simply by the influence and example of England.—James G. Blaine, Twenty Years of Congress.

OUR PHENOMENAL WEATHER.

It is Only the Usual June Cold Spell. While the oldest inhabitant avers that the present cold snap and the cool zephyrs that make overcast a desirable article of wearing apparel is unprecedented, yet it is but the usual June cold snap, a little more severe than heretofore experienced. The clouds have hovered about the snow-capped summits of the Sierra for several days, and the wind has blown with a severity that makes it piercing in its effect. Vegetables are suffering slightly, and the growth of cereals and hay will be delayed. Yet we ought not to complain. We cannot have eternal sunshine, yet compared with the East ours is a climate to boast of. Twenty-nine days' rain in Chicago during May, floods all over the East and eight inches of snow in Cheyenne yesterday with snow plows on the Union Pacific makes us cheerful in the contemplation of the ill of our neighbors.

That Railroad.

From time to time rumors of more or less authenticity reach the anxious Renoites concerning the new railroad. The latest good news is that W. H. Kennedy, the chief engineer of the road, is here and intends to go through Blackfoot Pass and down the South Fork of Feather river. He started on his trip yesterday, and he assured prominent Renoites that work would soon commence on the road.

A Basket of Pills.

And every one wants to stick fast in the throat, and feels as though they did stick somewhere. Away with them and take Simmons' Liver Regulation. One-half teaspoonful is a dose, and it goes down pleasantly. You'll find it a mild laxative, with no griping and does not debilitate. It quickly relieves the system of malarial poison, and cures Constipation, Indigestion, Biliousness and Sick Headache.

The Board of Examiners for Washoe county will be in session June 28th for the purpose of examining applicants for certificates as teachers in our public schools. The Board will meet for that purpose at High School building, in Reno, at 10 o'clock a. m., June 28, 1899.

T. V. JULLIER,
County Superintendent.

Bishop Whitaker's School.
A reunion of the Alumnae of Bishop Whitaker's School will be held on the evening of Monday, June 13th, in the parlor of the school. All members of the Alumnae Association are cordially invited to be present.

By order of the President.
Reno Encampment.
There will be a special meeting of Reno Encampment No. 5, on Saturday evening, June 11th for work in the degrees. By order of S. W. PECK, O. P.
F. C. UPRYKE, Scribe.

Building For Sale Cheap.
The lot now occupied by C. J. Brookins having been sold, the building on said lot will be sold very cheap. Apply to C. J. Brookins, Reno, Nev.
je8w1

Professor H. C. Adams, the statistician of the Interstate Commerce Commission, makes the statement that out of 153,235 trainmen in this country, 1,459 were killed and 13,172 were injured last year. Of these accidents 37.94 per cent. of the deaths and 45.57 per cent. of the injuries were sustained by railway employees while coupling cars or setting brakes.

Mrs. I. E. Huff, a sister of Mrs. Mary Emory of the Normal School, died yesterday morning. She arrived in Reno from San Diego where she had been for her health. Her death resulted from Bright's disease. Her son and daughter arrived here Tuesday from the East in time to see her alive. The body was taken East to Peoria, Illinois, last night for interment.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

Teaching a Girl a Lesson.
She happened to catch a Greens and Gates avenue car that was crowded with business men on their way to the bridge and a sprinkling of women and school-boys. She looked around in vain for a seat, but the men had their noses buried in newspapers and possibly did not see her. She stood almost directly in front of a gallant schoolboy who was studying "Caesars Gallic Wars," and he arose and proffered his seat. The young woman, without even a nod of acknowledgment, flopped down with an injured expression, as though she was just inheriting her rights, which she should have come into long ago.

"Excuse me," said the youth, a mischievous twinkle illuminating his eyes, "but I think I left one of my books on the seat."
At this point everybody looked up, seemingly all at once, and saw the young woman rise, and the young man resent himself, with a very audible "Thanks."
That young woman's embarrassment was painful. Everybody was smiling, and not a few old codgers chuckled. It was a cruel thing to do, and, as the young fellow says, he did it all on the spur of the moment, and would probably not have done it had he thought twice. However, he has evidently taught one young woman the appropriateness of gratitude, even in small things.—Brooklyn Eagle.

London Children Have to Work Hard.
The testimony of Mr. Lakeman, factory inspector, before the committee on the store hours bill sitting at London, revealed the terrible fact that the ordinary time of boys and girls behind the counter is eighty-four hours a week, or fourteen hours a day. But he knows of neighborhoods where the stores are kept open for ninety-six hours a week, or an average of sixteen hours a day. All the employees are expected to be present during the whole day, beginning at 6 a. m. and lasting till 10 at night.

The lower the neighborhood the longer the hours during which the stores are kept open. In some parts where laborers dwell stores will be open on Saturdays from 6 a. m. till midnight. Mr. Lakeman said that anemia, dyspepsia, and even varicose veins were produced in girls of sixteen to eighteen years in long hours in stores. On busy days the employees were not allowed more than ten minutes for dinner out of their sixteen hours of work a day and no time for tea. The majority of storekeepers, he said, would hail with joy a law enforcing a uniform limit of keeping stores open.—Chicago Herald.

Only One Poisonous Snake in England.
Of the 1,500 different species of snakes which are now known to naturalists, the great majority are not poisonous, and of the four kinds of snakes, or snake-like creatures, which inhabit England, only one is venomous. This distaste for serpents which most persons experience, gives way in many instances to a feeling of interest as soon as, without risk or danger, they become better understood. The collection of animals at the London Zoological gardens has now for many years included a considerable number of snakes, and so has greatly helped to diffuse a more rational sentiment in their regard. But much yet remains to be effected before that admiration for serpents, which their beauty and the many points of interest they possess really call for, is felt by educated persons in general.—Quarterly Review.

Mrs. Browning's Sonnets.
The sonnets from the Portuguese were written by Elizabeth Barrett to Mr. Browning before her marriage, although she never even showed them to him till some years after they were man and wife. They were sonnets such as no Portuguese ever wrote before or ever will write again. There is a quality in them which is beyond words, that echo which belongs to the highest human expression of feeling. But such a love to such a woman comes with its own testament.—Annie Thackeray Ritchie in Harper's.

Several attempts have been made from time to time to develop balloon photography, and special cameras have been devised for the purpose.
A favorite dish of the East Indians is an ant wash. The insects are caught in pits and mashed by hand into raisins.
In size the sun equals 1,300,000 earths, and owing to its smaller density its weight equals only 330,000 earths.

Animals' Eyes Flag Trains.
"Yes, we have a good deal of experience with wild animals," remarked an engineer, "but not so thrilling as that of the engineer on western roads when the Buffalo was common on the plains. But there is enough still left of wild animal life to make it interesting. The eyes of the wolf, coyote, wildcat, jack rabbit, polecat and other animals look like a red light when facing the headlight. Did not these animals quickly undeceive us by turning their heads, an engineer might think his train was being flagged and stop his engine. The wolf, wildcat and coyote are quick and sure from the track, but the jack rabbit is less fortunate. The headlight has a strange fascination for this animal and often it is killed."—Denver News.

For Over Fifty Years
Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children's teething. It is distributed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, and at once get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach, and Bowels, cures Wind Colic, softens the Gums, reduces Inflammation, and gives Tone and Energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children teething is pleasant to the taste and is the best prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup" for children teething.

"Yes, we have a good deal of experience with wild animals," remarked an engineer, "but not so thrilling as that of the engineer on western roads when the Buffalo was common on the plains. But there is enough still left of wild animal life to make it interesting. The eyes of the wolf, coyote, wildcat, jack rabbit, polecat and other animals look like a red light when facing the headlight. Did not these animals quickly undeceive us by turning their heads, an engineer might think his train was being flagged and stop his engine. The wolf, wildcat and coyote are quick and sure from the track, but the jack rabbit is less fortunate. The headlight has a strange fascination for this animal and often it is killed."—Denver News.

LIGHTNING FLUID.
THE GREAT PAIN KILLER!
INSTANTANEOUS IN ITS ACTION!

This is the most wonderful pain-de-stroyer that has ever been put before the public. From its rapidity of action comes the name we give it. Positively the greatest boon to suffering humanity. No family should be without a bottle in the house. We warrant it to be a sure and lasting cure for all pain. This is one of the few harmless but effective remedies that is most valuable for inward as well as outward applications, and will cure in cases where all other medicines have failed. For Headache, Neuralgia, Rheumatism, Sprains, Bruises, Chills, Colic, Influenza, Coughs and Colds, Cramp in Stomach, Pains in Back and Limbs, and all pain flesh is heir to. For sale by all druggists in 50c and \$1.00 bottles. **DON'T FAIL TO TRY IT.** For sale by Wm. Pinniger.

There is no impression more unjust, nor more difficult to efface from the minds of well intentioned women, than that the entrance of women into industrial pursuits lowers their moral standard. This is not always formulated thus plainly, but it is implied in all the efforts of these well meaning women to mitigate the condition of women working for their weekly wages. If they establish a comfortable boarding house, or lodging house care is taken to institute moral safeguards, which in many cases are so rigorous that self respecting working girls refuse to enter them. If they organize classes for recreation or mental improvement it is considered quite within their province to address these classes with words of warning and personal admonition that it would be considered an impertinence to address to girls of their age in other walks in life. If they desire to get a bill passed in behalf of working women at Albany, it is the moral aspect that is urged out of all proportion to the legitimate reasons in its support.

A feather worker once said, after listening to a combined amount of addresses at a working woman's meeting: "Why do ladies talk to us in that way. I sit at a table with a dozen girls every day and not a word is said that would offend those ladies, except our grammar." The alliance between poverty and crime is by no means exclusive. The fact that a girl spends nine hours a day in a factory working for her daily bread is an argument in her favor as against Satan and all his works.—New York Evening Sun.

Girls and Their Allowances.

Young girls are very apt to spend their allowance. By the way, I wonder what the girls of wealthy parents here in the city consider a suitable allowance, or rather, which is more to the point, what their parents consider a suitable allowance.

At a reception the other night, where pretty girls were notably numerous, a young lady told me she supposed his daughters cost him \$2,000 a year at the lowest. This of course had no reference to board and many other such trifles, which were included in the family expenses. But, dear soul, he didn't begrudge a cent of it, you could see that, for he was one of the kind who think girls should be like flowers, without a care themselves, yet blooming to make the world beautiful, to give light and color to social occasions and to fill the home with joy. Two thousand dollars a year! Rather a pretty sum, and while one is in wonderland, we may as well wonder if the sweet girls ever realize that this sum is sufficient to support a little home in comfort by prudence and care.

The same evening I also heard a tale of woe, how the debutantes of a certain block were in great money difficulties, owing to the fact that there were to be three weddings in a short space of time, a fact that would draw heavily on their purse strings, with the attendant new gowns, presents and fixings. Then there is the summer wardrobe, which must be planned in the midst of wedding festivities, making the crisis doubly critical.—Brooklyn Eagle

Better Late than Never!
"Don't put off until to-morrow what can and should be done to-day," is wise. If you have never used SOZODONT for your teeth, make a bee-line to the druggist and get a bottle and begin to use it at once. "Verb sap."

Footmen Supplanted.

Whether it is that women in the long run are found to be better servants than men, or that, the times being bad, their more slender wages prove alluring to the careworn housekeeper, the fact remains that footmen are being discarded by many houses, the reign of the parlor maid becoming supreme. The change in most respects is one to be commended, although the appearance of a maid when opening the front door, however trim she may be, compares unfavorably with the smartness of a well "turned out" footman, in all the pride of a speckless liver.

One day, calling for the first time on some acquaintances in Eaton place, my breath was taken away when the door flew open, and three parlor maids standing at intervals, attired in the most unfamiliar of costumes, dawned upon my view. You see, my friend, had I wished to make a compromise, and had I bestowed a liverly upon her woman servants, their brown plush tail coats and snowy shirt fronts and ties might have pleased the most fastidious, but there was a self consciousness about these handmaidens which, to me at least, proved a source of serious irritation.—Gentleman.

Two Things That Cannot Be Done.

To hold a school up to the highest standard of excellence, and this by unceasing vigilance, is one thing. To manage it so as to make the most money and to gain the most friends, is another. The teacher who tries to do both will probably not succeed in the first.—Anna C. Brackett in Harper's.

A Bean of 1829.

When grandpa went a-wooling,
He wore a satin vest,
A trail of running roses
Embroidered on the breast.
The pattern of his trousers,
His linen, white and fine,
Were all the latest fashion
In eighteen twenty-nine.

Grandpa was a fine-looking young fellow then, so the old ladies say, and he is a fine-looking old gentleman now. For the past score of years he has been a firm believer in the merits of Dr. Pierce's Golden Medical Discovery. "It renewed my youth," he frequently says. It is the only blood-purifier and liver invigorator guaranteed to benefit or cure, or money promptly refunded. It cures liver diseases, dyspepsia, scrofulous sores, skin eruptions, and all diseases of the blood. For lingering coughs and consumption (which is lung-scrofula in its early stages) it is an unparalleled remedy.

WOOD FOR SALE.

"August Flower"

Dyspepsia. There is a gentleman at Malden-on-the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, and Constipation we have ever used or known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, relieves the difficulty. My wife frequently says to me when I am going to town, "We are out of Constipation of August Flower, and I think you had better get another bottle." I am also troubled with Indigestion, and whenever I am, I take one or two tea-spoonfuls before eating, for a day or two, and all trouble is removed."

ORDER TO SHOW CAUSE.

IN THE DISTRICT COURT OF THE STATE OF Nevada, in and for the County of Washoe, deceased. The undersigned, Administrator of the estate of John Singleton, deceased, having filed his petition herein, duly verified, praying for an order of sale of the whole or real estate of said deceased for the purpose therein set forth, it is therefore ordered by the Judge of said Court that all persons interested in said estate of said deceased appear before the said District Court of the State of Nevada, in and for the County of Washoe on the 25th day of June, A. D. 1902.

At 10 o'clock in the forenoon of said day, at the Court Room of said District Court, at Reno, Washoe county, Nevada, to show cause why an order should not be granted to the said Administrator to sell the whole or real estate of said deceased at public auction, and that a copy of this order be published at least four consecutive weeks in the Daily Nevada State Journal, a newspaper printed and published in Reno, Washoe county, Nevada.

Dated May 26, 1902.

A. E. CHENEY, District Judge.

A HINDOO TEMPLE.

rites and ceremonies by which the idol is honored.

A Complex Institution Over Which the High Caste Brahmins Exercise Supreme Authority as Recorders, Trustees and Ministrants—Their Methods.

The Hindoo temple of any size or pretensions is a complex institution. It is a group of buildings inclosed within one or more walls. It possesses certain privileges, granted by native rulers in days gone by and still respected by the present government. It enjoys what may almost be termed a royal revenue from houses, lands and offerings, and it possesses hoards of treasure in jewels, gold and silver vessels and coins. The property is in the hands of trustees, who are elected or who claim an hereditary right to the office.

These have power over an enormous wealth. Under unscrupulous trustees valuable jewels have disappeared or been replaced with glass. Hoards of silver and gold coin have been melted with copper. Rich lands have been let at a nominal rent to their relatives, and offerings intended for the temple have been appropriated personally. Occasionally a trustee is prosecuted for his dishonest practices, but it is not often that he is punished.

The erection of the Hindoo temple is the work of a slow system of evolution. Some holy man perhaps dies on the spot, or he has an ecstatic vision of the god in one of the incarnations. The space is invested with sanctity and an image set up to the deity. The landowner straightway builds a small shelter over it to propitiate the god in his favor. The ground around the edifice is next inclosed with a fence.

By and by the shed is removed and something more pretentious and lasting erected. The dewan, or prime minister of the province, makes a pilgrimage to the shrine and leaves a rich offering in the hands of the Brahmins, who have instituted themselves as receivers, trustees and ministrants. More pilgrims come; offerings in kind as well as in jewels and money pour in, and new buildings are erected. Courts, halls, galleries, a tank, pillared platforms, walls, gateways and towers slowly grow around the shrine—the center point of the edifice. Other shrines of affiliated deities may group themselves near the original, but the mulasthanum is always the same.

It holds the image of the deity to whom the temple is dedicated, and it is the scene of daily ceremonies. At all risks it must be jealously guarded against the intrusion of any but the twice born. When Clive took the temple of Srirangam—the largest in southern India, and a powerful stronghold in those days—2,000 fierce Rajputs stood before the door of the Mulasthanum, declaring that the Europeans should only pass in over their dead bodies. Their superstitions were respected, and Clive left the fanatics in possession.

In preserving the integrity of the sacred shrine the Hindoo has something more to consider than his religious scruples. The restitution of the divine or mantric essence is a very expensive and intricate process, requiring large sums of money for its different rites. At Velore there is a handsome temple which was desecrated years ago by the Mohammedans. They killed a cow in the Mulasthanum. The building now stands empty and unoccupied and the European may go into outer and inner court as he pleases. The Mulasthanum is a small hall, richly decorated with carvings. It contains nothing but a stone dais, on the face of which is a tortoise in outline.

The image rested formerly on the tortoise. There is a small gutter around the platform, which conducted the sacred water—used for the ablutions of the idol—into a reservoir outside. Pilgrims drank of this water eagerly in belief of its miraculous powers of healing and purification. The temple would probably be used again by Hindoo worshippers if money were forthcoming sufficient to restore the divine essence.

The idol is not usually made of wood or stone. It is molded in an amalgam of five metals—gold, silver, brass, copper and lead. It is not called a "Swami" until the mantric essence has been infused into it by the proper ceremonies. These are performed by the Brahmins, who claim the power of placing the essence in any object, animate or inanimate that they choose. Sometimes the object is a man, the chief trustee or "Moktesoor." He is then said to be divine, and is called "Swami," and moreover, is worshipped as a god. The daily ritual which concerns only the idol, takes place inside the shrine at intervals during the day.

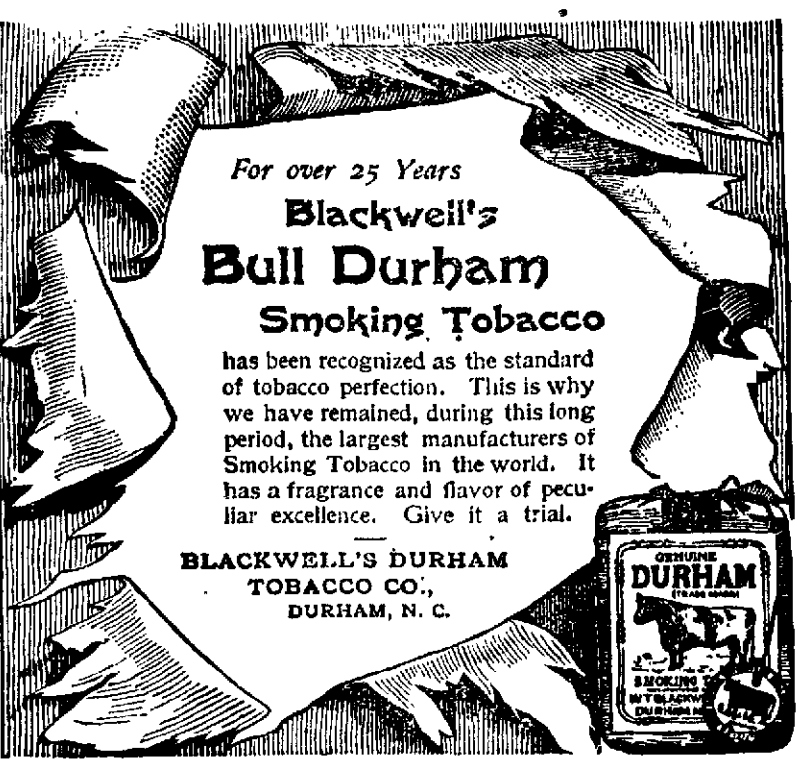

No worshippers are present except those who are taking part in the function. The image is tended in every minute particular as though it were a living human being. Nothing is omitted. It is washed with water from the sacred tank. It is dressed and fed. It is supposed to take pleasure in the company of the dancing girls; it sleeps and wakes, and finally is put to bed. During its toilet hymns of praise are sung, lamps are lighted, camphor and incense burned, and the tantom is frequently introduced. Part of the revenue of the temple pays for all of this, and a great many Brahmins find their occupation and their living in it.

The ritual of the festival is much more imposing. The image is covered with plates of gold and loaded with jewels. It is carried in procession upon a huge car, surmounted with a throne of silver. It may now appear before the eyes of all, and it makes a slow and magnificent journey around the outer courts of the temple—which are open to all casts—and through the town. Offerings in kind and in money and jewels are received. The dancing girls are to be seen, their charms enhanced by rich silk and gold; they are the daughters and wives of the god, and the children of the devil. The value of their charms goes to swell the offertory considerably.—Chambers' Journal.
